DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 21 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art does not disclose a developing method comprising coating a developing solution on a wafer; rotating the wafer; rinsing both surfaces of the wafer; stopping the rinsing of the front surface of the wafer while continuing to rinse the rear surface of the wafer for a specific time period..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Phan et al. (US 6,759,179) discloses developing the wafer, rotating the wafer, rinsing both sides of the wafer, stopping the rinse of the rear side of the wafer and continuing the rinsing of the front surface of the wafer. The other references disclose background information.
